Intelligent Cloud

Migrate, Modernize and deploy with cloud native agility

Intelligent Cloud equips your business with a secure, modern cloud environment that serves as a powerful foundation for innovation. We've reimagined the journey to a cloud native state, helping you work more efficiently while transforming your IT operations.

Create unparalleled agility and position your business for success with the help of our Microsoft Cloud experts. The Cognizant Microsoft Business Group utilizes a trusted blueprint to modernize and deploy your infrastructure, platforms, applications and data workloads. From security and compliance to application modernization, enterprise integration and beyond — our offerings are built with platform native functionality, removing the need to rely on incompatible, third-party products. Intelligent Cloud is powered by our exclusive 10vū™ transformation toolset and Drivetrain™ orchestration and deployment engine, giving you the ability to assess, deploy, govern and operate your cloud environment more efficiently than ever before.

"By 2025, cloud computing will be pervasive. Cloud will drive not only technological innovation but also serve as the foundation for business innovation."

Gartner, The Future of Cloud 2025

Microsoft Business Group

Intelligent Cloud Offerings

Our Microsoft Cloud experts are here to help you achieve your most advanced innovation goals utilizing platform native technology and industry best practices. We provide a complete range of Intelligent Cloud services — from security to analytics, artificial intelligence, modern business applications, IoT and edge technology, and much more. Explore our offerings below to make your cloud native vision a reality.

Secure and Compliant Cloud Platform
Establish a secure and compliant home in the cloud for your mission-critical apps, data and infrastructure utilizing Microsoft best practices and our Azure expertise. We act as your knowledgeable guide to help deploy, manage, secure and maintain compliance of existing and new Azure environments.

Data Platform Modernization with Intelligent Analytics
Securely unlock the power of your data with a modern data platform and advanced analytics. Leveraging artificial intelligence and a data-first approach, we'll help you gain key insights to empower real-time, mission-critical business decisions, drive efficiencies and improve experiences so you can thrive in a competitive marketplace.

Intelligent Business Applications
Optimize your business applications to break down silos and extend capabilities utilizing Microsoft technologies and a human-centric approach. Empower your teams to operate more efficiently and deliver exceptional services and personalized experiences at every touchpoint.

Azure Modernization Factory
Accelerate digital transformation and evolve your business in the Microsoft Cloud with platform native agility. We'll put our advanced skillset to work helping you assess, migrate or modernize, and manage your infrastructure, applications and data in Azure with a proven methodology, enterprise-level blueprints and our revolutionary toolset.

Intelligent Edge
Unleash the power of IoT devices and take your business to new heights. By combining intelligent edge technology with a powerful Azure cloud backbone, you'll gain the ability to aggregate device data, utilize platform native artificial intelligence and security tools, and drive innovation forward.

Enterprise Business Process Automation
Leverage artificial intelligence and machine learning alongside seamlessly integrated business applications, services and datasets to streamline business processes. Optimize operations, fuel innovation and deliver personalized digital experiences to customers and partners.

Azure SAP Accelerate
Transform your on-premises SAP applications into modern enterprise solutions with platform native functionality. Azure SAP Accelerate offers a consumption-based model and empowers your SAP environment with cloud-enabled agility, so you can innovate, scale rapidly and build a future-ready enterprise.

Accelerate with DevOps
Embrace the power of DevOps to achieve your full potential in the cloud. We'll unite your people, processes and technology to help you build enterprise agility, increase developer velocity and deliver innovative new products and modern digital experiences with greater confidence, control and reliability.

Cloud Native Application Development
Bring your enterprise application ideas to life with cloud native agility on Azure. Our team of Microsoft certified experts will equip you with cloud applications built for reliability, performance, security and scale utilizing our elite Azure skillset and proven development methodologies.

Microsoft Business Group

Our Methodology

Build agility and transform your business at speed with our platform native Digital Operating Model that provides enterprise-level blueprints for digital transformation.

Our four key solution areas are Intelligent Enterprise, Intelligent Experience and Operations, Intelligent Cloud, and Intelligent Workplace. They encompass an extensive portfolio of offerings designed to transform your business with focus, simplicity and scale.

Intelligent Enterprise
Envision your organization's ideal digital future. Plot a roadmap to evolve your capabilities in the cloud and stand out in a competitive market.

Intelligent Experience and Operations
Embrace human-centered design, innovative technologies and modern business processes to engineer meaningful experiences for employees, customers and partners.

Intelligent Cloud
Empower your organization with a next-generation cloud operating model to increase velocity and control. Migrate, modernize and deploy with cloud native agility.

Intelligent Workplace
Enable increased productivity, communication, collaboration and mobility while remaining safe, secure and compliant — across the office and around the globe.

Why the Cognizant Microsoft Business Group?

The Cognizant Microsoft Business Group has a singular focus — advancing your cloud modernization journey with focus, simplicity and scale. Together with Microsoft, we provide the blueprints, resources and agility to propel your business forward. We turn digital potential into real business performance at speed, with end-to-end Microsoft Cloud solutions and managed services. Our dedicated experts deliver continuous innovation and business value at every stage of your digital transformation.

The Cognizant Microsoft Business Group is one of the world's most certified Microsoft partners, with over 7,500+ Microsoft certified consultants, 16 advanced specializations, 18 Microsoft gold competencies and 30+ Microsoft Partner of the Year Awards.

Wherever you are in your modernization journey, and whatever your end goals are, we can help you get there.
