

Enterprise Rater

An Integrated rating solution from Cognizant

Partner with
Cognizant for Risk
Management in the
ever-changing
Insurance Rating
Business.

Are you having nightmares managing multiple rating engines? Are you constrained by the inflexibility of your rating engine in quick introduction of new locations and products? Are you too much dependent on program changes to revise rates? Are you having problems accessing rating engine via new distribution channels?

Cognizant's Enterprise Rater, a customizable rating framework, is the one-stop solution for above problems which addresses your rating problems and also provides you the critical crunched-time-to-market advantage

Enterprise Rater—Leveraging our Insurance Expertise

Being the preferred IT partner to the Top 50 P&C and Life Carriers in US, Cognizant has an enviable track of delivering high-quality, cost-effective business solutions.

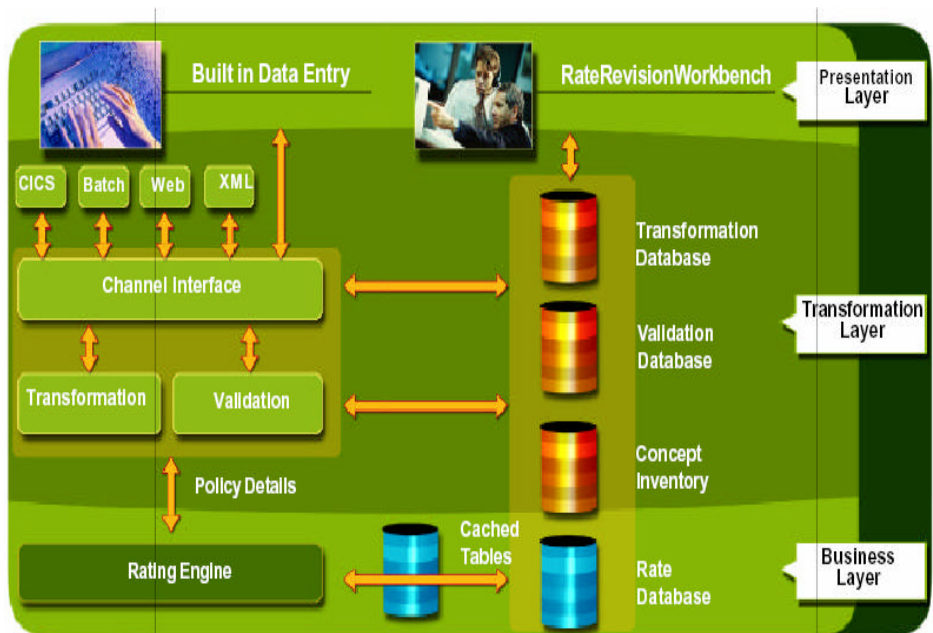

With extensive experience in core insurance operations in P&C line spanning client acquisition, rating, policy administration, claims administration, etc. Our solutions are comprehensive and proven.

Enterprise Rater—A Snapshot

Cognizant brings together best of the architectural aspects, programming standards and insurance domain expertise to deliver a flexible rating solution – ENTERPRISE RATER.

As a rating solution it aims to be a rules driven engine capable of handling location specific variations and accessible from multiple distribution channels. As an architectural solution it is designed to be scalable, modular and platform independent. Enterprise rater constitutes of a run-time rating engine and a rate revision workbench to support integrated rate revision workflow.

The Enterprise Rater Framework

The Right Framework

Cognizant Technology Solutions

You create the future, we develop IT.
