

## TriZetto® CareAdvance Enterprise® and QNXT

### A Unified Solution for Care Management

Realizing the cost savings and quality improvement potential of care management programs requires efficient, thoughtfully-integrated applications that connect care managers to members and providers.

The CareAdvance Enterprise® application that provides unsurpassed care management capabilities for improving outcomes and predictability now has next generation pre-integration with the QNXT™ core benefit administration system. This comprehensive solution delivers full care management functionality across utilization, disease and case management initiatives.

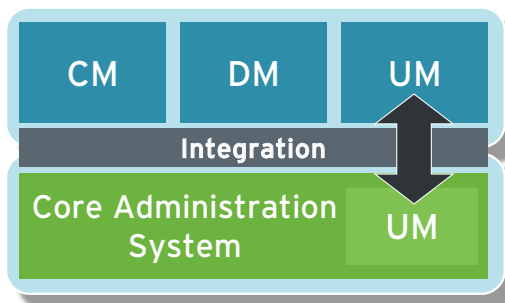

CareAdvance Enterprise and the QNXT core administration system are part of the Cognizant line of TriZetto Healthcare Products—a portfolio of software products that help healthcare organizations enhance revenue growth, drive administrative efficiency, improve cost and quality of care and improve the member and patient experience.

#### CareAdvance Enterprise is integrated with QNXT to provide:

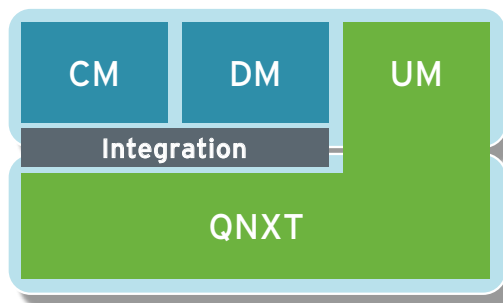

- A single, enhanced Utilization Management solution that eliminates complex and costly UM data integration.
- Compatibility with Milliman Care Guidelines or InterQual Clinical Criteria
- Enablement of HL7 Continuity of Care Document Member Summary
- Seamless access to QNXT UM Workflow and A&G functionality from within CareAdvance
- An enhanced analytics rules engine

This integrated solution supports compliance requirements and simplifies workflows and processes for care and population health management. Deliver targeted health information and wellness campaigns more effectively, while getting the most from member and provider interactions. Cognizant has NCQA Disease Management Systems Certification for seven disease management programs supported by CareAdvance Enterprise\*.

## Traditional Care Integration

## QNXT and CareAdvance Integration

### An effective approach to integration

Powerful QNXT Utilization Management capabilities can be accessed directly from CareAdvance—eliminating switching between applications. Immediate access to new QNXT functionality, such as UM Workflow and Appeals & Grievances, further supports your care management activities.

Your organization will benefit from:

- Increased efficiency via a streamlined, unified CM/DM/UM experience
- Reduced risk and total cost of ownership through productized integration
- Elimination of complex UM integrations and ongoing maintenance risks
- Up-to-date QNXT information views without leaving CareAdvance
- Improved authorization matching and reduced approval risks with real-time feedback from QNXT

### Efficient workflows. Improved outcomes.

#### Engaged providers.

Gain faster, streamlined workflows:

- Consolidated application screens allow easy navigation and access to key member information
- An intuitive interface allows access to multiple screens without losing work and information gathered during member assessment and interactions

- Configurable security enables assignment of various levels of authorized access to member profiles and information

Improve care management program delivery through:

- Accurate forecasting, identification and stratification of members
- Standard and customized reporting functionality
- An open analytics platform that can be custom-integrated with any advanced analytics solution

Deliver real-time services to provider communities through Cognizant web services integration—enabling payer-provider collaboration at the point-of-care.

### Reach your objectives faster

In addition to TriZetto CareAdvance Enterprise and QNXT, we offer an extensive line of solutions and services that harness the power of digital to optimize your business. Achieve new levels of performance and efficiency with Digital Business, Digital Operations, and Digital Systems and Technology capabilities from Cognizant.
