TriZetto® NetworX Modeler®
Negotiate and Compare More Contracts in Less Time, with Greater Insight and Financial Accuracy

Today’s provider networks and complex contract negotiations demand quick comparisons and demonstrations of network competitiveness to win business. Contract-modeling tools must be able to support CMS reimbursement standards, the advent of new payment methodologies and the need to swiftly deliver highly precise financial analyses.

TriZetto® NetworX Modeler® and NetworX Modeler® Analytics. Bringing speed and precision to provider contract modeling and reporting.

With NetworX Modeler, modeling and evaluating the potential financial impact of new contracts is easier, faster and highly accurate. The NetworX Modeler solution is part of the Cognizant line of TriZetto Healthcare Products—a portfolio of software products that help healthcare organizations enhance revenue growth, drive administrative efficiency, improve cost and quality of care and improve the member and patient experience.

Sophisticated financial analysis and reporting that lets you:

- Introduce more complex payment methodologies to help lower costs
- Model contract variations by repricing original claims instead of applying a factor to the total amounts
- Demonstrate network cost savings to win new group business
- Increase provider satisfaction by accurately modeling contract rate changes based on actual claims
- Compare current and proposed contract rates to a baseline, such as Medicare
