

Fastrack parametric insurance in partnership with Vlinder

Problem statement

Increased occurrence of climate related natural disasters across the globe

Traditional insurance don't cover natural disasters creating protection gap

Lack of risk based models and retail products to bridge protection gap

Financial proceeds can take months to years

Value proposition for carriers/ MGA

Accelerated product rollout in weeks

Single version of truth analytics dashboard for donors, brokers, insurance firms, others

Automated payout & 0 claims processing cost

Embedded and bundled offering

Solution and features offered by Parametro

Our Parametro platform facilitates the last-mile roll-out by uniting all ecosystem players, including carrier/distributor, risk modeler/ capacity provider, weather API, and consumer within a blockchain network.

Customer portal – browse, purchase, hold policy, check event/ payout status

eKYC, sign-on, customer onboarding payment integration – bank, credit, wallet multi-currency – payment and payout

API integration with weather source, status of event / payout

Admin portal – define product, price, launch sale analytics dashboard
