

Cognizant® WorkNEXT Essentials

**Powered by ManageEngine |
Managed by Cognizant**

Business challenge

Organizations going through carve-outs, spin-offs, split-offs, or greenfield rollouts need a fully functional IT environment fast—with lean budgets, no inherited infrastructure and a hard day-one deadline. Traditional solutions mean multiple vendors, complex integrations and slow, expensive deployments.

Our value proposition

Cognizant® WorkNEXT Essentials gives you a fully managed, modular AI-powered IT stack—deployed in weeks, at a fraction of the cost of traditional enterprise alternatives—with zero inherited complexity.

- All-in-one: IT service management (ITSM), digital employee experience (DEX), remote access, end-point management, and identity
- Managed end-to-end by Cognizant and powered by ManageEngine
- Modular and scalable—start with what you need, and expand as you grow
- Significant total cost of ownership (TCO) advantage over fragmented multivendor stacks

Key differentiators

- Fast deployment—go live in days, not months, with preconfigured playbooks
- Low TCO—predictable per-seat pricing and a single-vendor contract
- Modular stack—start lean and expand modules as the business grows
- AI-powered—built-in AI across ITSM, endpoint and identity workflows
- Single accountability—one SLA and one managed services partner

Business value for clients

- Operational from day one and no IT blackout during transition
- Up to 40% lower total cost vs. fragmented vendor stacks
- Reduced IT headcount dependency through managed services
- Faster time to productivity for employees and IT teams
- Scales seamlessly from 500 to 50,000 seats

Partner ecosystem

- ManageEngine's core platform: ITSM, DEX, endpoint and identity
- Microsoft 365 for collaboration, email and identity foundation
- Cognizant Managed Services for delivery, support and governance
