Solution Overview

TriZetto CareAdvance

Tightly integrated. Cloud-based technology. Comprehensive care management.

TriZetto® CareAdvance® provides a single platform that streamlines disease, case and utilization management, allowing health plans to deliver targeted health information more effectively and efficiently while getting the most out of interactions with members and providers.

The TriZetto CareAdvance solution delivers:

- Advanced population health management by tightly integrating case, disease and utilization management (UM).

- Pre-integration with TriZetto® Facets® or TriZetto® QNXT™ for real-time data exchange.

- Proven integration with third-party core systems.

To realize the cost and quality improvement potential of care management programs, health plans need efficient, seamlessly integrated applications that connect care and utilization managers to members and providers.

Key benefits

Efficient care management workflows

- Provide time-saving starting points for care management programs.
- Ensure consistently applied best practices in developing member-specific care plans.
- Enable care managers to spend more time interacting with members.
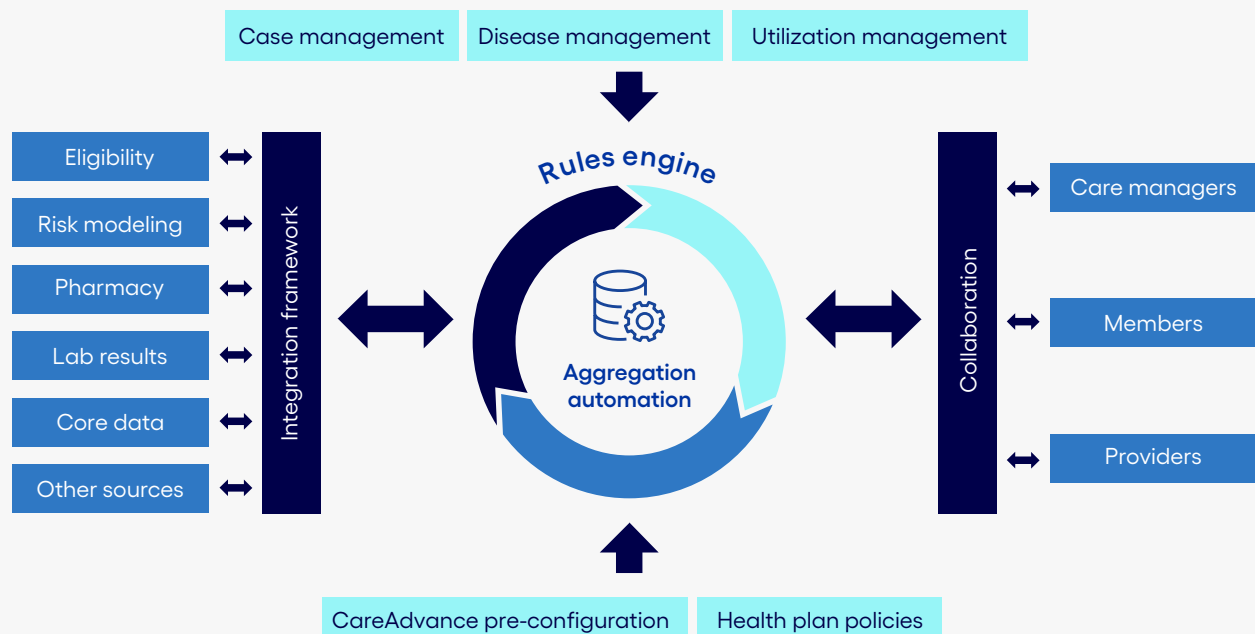

Optimized clinical outcomes and costs

Leverage analytics, ours and yours, for accurate and efficient referral to care management programs, identify care gaps, reduce avoidable readmissions, and meet HEDIS® and other quality goals.

Consistent, high quality, medically appropriate care

Apply industry-standard clinical guidelines, with your plan's own utilization management best practices, to determine medical necessity.

Reduced provider effort and care delays for your members

- Eliminate labor-intensive and time-consuming utilization management processes for your providers when they need to submit prior authorization requests.
- Reduce the time-lag for approving prior authorization requests from days to minutes, saving you and your providers money in the process.
