

"With pharmacovigilance rapidly evolving at the intersection of advanced technologies, dynamic regulatory requirements, quality expectations, and an intensified emphasis on patient centricity, organizations are increasingly seeking flexible and forward-looking partners capable of delivering end-to-end value," says Vandana Sharma, Practice Director at Everest Group.

"Cognizant distinctly addresses these evolving demands with its comprehensive yet flexible PV portfolio tailored for biopharma, biotech, and MedTech segments. Its full-service model integrates digital transformation capabilities and PV operations with IT and quality ecosystems. By leveraging a robust platform approach, supported by a partner ecosystem including Oracle, ArisGlobal, Biologit, ZenQMS, and Ultragenic, Cognizant drives automation and operational efficiency across the safety value chain. Client recognition for compliance outcomes while maintaining delivery agility has helped Cognizant to earn its position as a Leader in Everest Group's Post-Approval Pharmacovigilance Operations PEAK Matrix® Assessment 2025."
