

Total control over healthcare data with Cognizant Provider Lifecycle Administration

Designed for precision. Built for provider
lifecycle success.

Cognizant® Provider Lifecycle Administration is a comprehensive, AI-powered data management platform built for healthcare organizations to streamline end-to-end onboarding, credentialing, contracting and directory management.

As-a-service

Cloud-ready

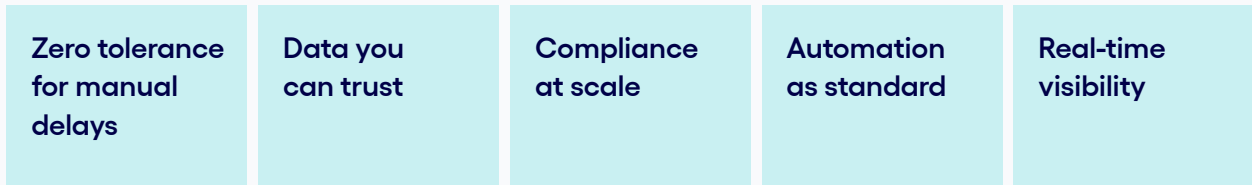

HIPAA-compliant

What the industry is demanding

What modern healthcare organizations are expected to deliver

Today's health plans are under growing pressure from regulators, organizations and members to deliver faster, more accurate and more transparent data management. Meeting that bar requires more than incremental under growing fixes.

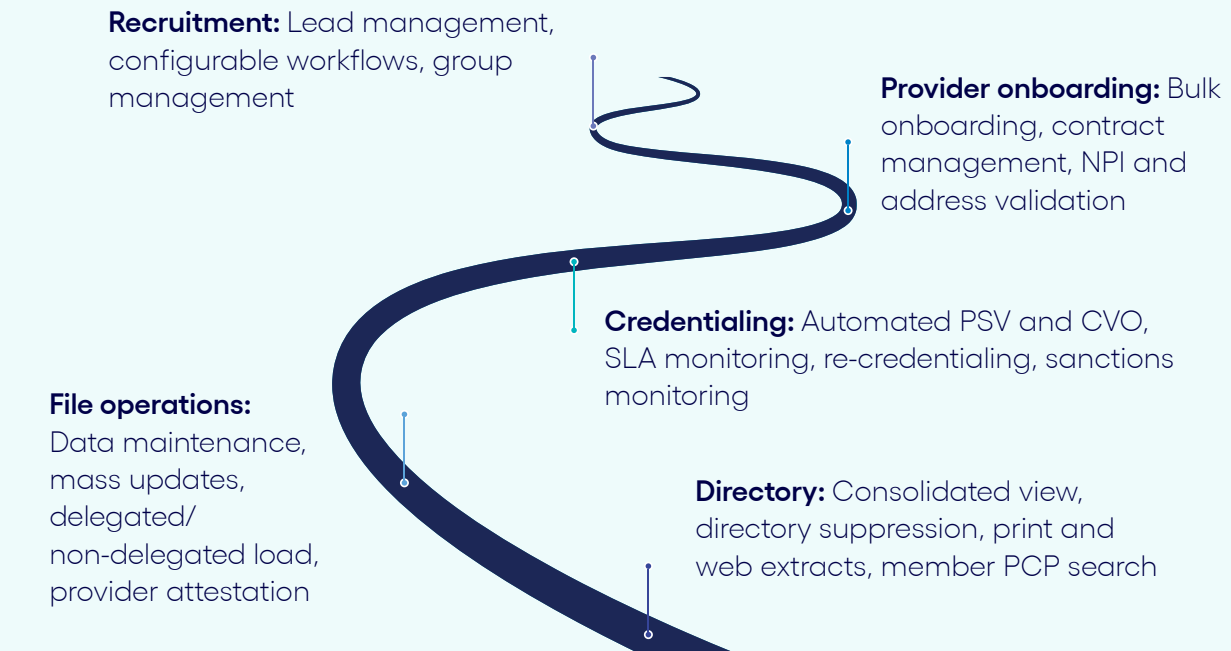

What the industry wants

The solution

One platform. Every stage of provider management.

Cognizant Provider Lifecycle Administration is a single, unified platform giving healthcare organizations complete control delivered as a service, at scale.

Intelligent capabilities: Harmonious data sync, resilience, automatic case assignment, rule engine for network affiliation (AutoCalc) and automated implementation

"Improving experience is a top priority for us and we are looking forward to this expanded partnership with Cognizant. This provides a new ability to offer geo-based pricing in our markets." — **COO of Operations, a global health insurance company**

Designed for precision. Built for provider lifecycle success.

Why Cognizant Provider Lifecycle Administration

Unified provider intelligence directory-centric data model | Inbuilt data mastering | Proactive sync alerts | Automatic failover | Multi-LOB coverage
