

1. Q: I heard there is a huge change to the OCR function for supplier invoices.  
A. There is. In the presentation we will talk about new fields that can be required on OCR invoices. Which will go hand in hand with the touchless supplier invoice functionality.
2. Q: Has Workday indicated any plans to require customers to default to the requisition worklet?  
A. There is not a defined date where they will deprecate the legacy experience. However, Workday will provide a notice in advance to allow for customer to plan their transition.
3. Q: What is the release date?  
A. Live in production on March 15<sup>th</sup>
