

# Cognizant SAP Sustainability Cockpit

## Solution overview

Cognizant SAP Sustainability Cockpit is a flexible solution that enables the capture of various sustainability-related data across your organization's applications. Its state-of-the-art dashboards ensure information is centrally stored and sustainability KPIs—including responsible sourcing, greenhouse gases, and roundtable for sustainable agricultural products—are delivered.

---

## Solution benefits

- A fully unified approach, integrating all data-generating systems—on-premises, cloud and other web platforms
  - Integrates Scope 3 data into a central data platform
  - Real-time visualizations providing multiple sustainability KPIs
- 

## Business benefits

- Supports in procuring products and services in an ethical, sustainable and socially conscious way
- Provides transparent reports to capture companies' carbon footprints
- Helps companies own the responsibility to limit risks concerning business operations
- Enables accurate GHG emissions disclosures—provides greater clarity to investors and helps guide capital towards addressing companies' impacts on climate change
