

Cognizant SAP Visual Factory

Solution overview

Conquer the future of industry with seamless convergence of Information Technology (IT) and operational technology (OT): Elevate your manufacturing with Cognizant SAP Visual Factory (previously known as SAP Connected Factory), where data-driven insights empower smarter decisions for agile, intelligent production.

Solution benefits

- Enables shop floor to top floor integration
 - Provides a role-based platform that offers real-time visibility and tracking to drive intelligence and actionable insights across organizations collecting business data from ERP and shop floor data from plants
 - Obtains a comprehensive global view of the assembly line, allowing for in-depth analysis of asset-level details, valuable insights, and a clear understanding of the impact on profit and loss
-

Business benefits

- Increased uptime by accessing near real-time information on manufacturing operations
- Lower costs through optimized performance and reduced scrap rate
- Enhanced responsiveness for dynamic plant conditions
- Optimized plant performance and increased profitability through a global view of connected smart factories and asset-level details

Cognizant (Nasdaq-100: CTSI) engineers modern businesses. We help our clients modernize technology, reimagine processes and transform experiences so they can stay ahead in our fast-changing world. Together, we're improving everyday life. See how at www.cognizant.com or [@Cognizant](https://twitter.com/Cognizant).
