

The Power of the Platform Workshop

Changing the way you work!

Linium, a Cognizant company's **Power of the Platform** workshop is an interactive session designed to help your team unify your ServiceNow strategy and execute your digital transformation journey leveraging the power of the ServiceNow.

In this workshop, we will help you identify your pain points, enabling us to deliver solutions customized for your organization, maturity levels, goals, and industry. We will subsequently create a One-to-Three-Year customized roadmap based on your investments and adoptions of the various ServiceNow domains.

Though all roadmaps are designed with the right intentions, most of them end up sitting on a shelf because they are not actionable. The Power of the Platform workshop will create a **ServiceNow Roadmap** that will help you plan for success by convening key stakeholders across your organization to review and discuss your desired business outcomes. Linium's thought leaders will facilitate the required conversations crucial to creating recommendations that solve your challenges and define the next steps in the right direction, enabling you with a foundation to achieve continued success.

Cognizant[®]

Executable plans

We have the expertise to create comprehensive plans that clients can rely on.

Domain expertise

With a full understanding of the entire ServiceNow Platform, our dedicated practices to the following domains enable Linium to create a comprehensive and executable plan for ServiceNow that our clients can rely on, adjust when needed, and march toward with confidence:

Enterprise Service Management

- HR Service Delivery
- Customer Service Management
- IT Operations Management
- IT Business Management
- Asset Management
- Security Operations
- Governance, Risk, and Compliance

Think out of the box

Our workshop is the opportunity for your team to dialogue about and collaborate on the following areas:

- Defining the ServiceNow platform and the value specific to your business
- Typical pitfalls – people, process, and platform – and how they relate to your reality
- Modernizing for the digital age and envisioning the end state
- How your organization can address operations with ServiceNow
- ServiceNow innovations you want to leverage
- Defining your roadmap, garnering buy-in, and securing budget for expansion
- Growth strategies and kicking your roadmap into action
