

CHARGEMASTER REFORM

ACCURACY FOR REVENUE INTEGRITY

Chargemaster problems with coding, underpayments, missed charges, billing delays and edits or claim denials can cause compliance issues and limit your reimbursement and cash flow. Conducting a comprehensive Chargemaster review for corrections will ensure compliant billing, accurate revenue and optimum cash flow. Chargemaster maintenance is essential in increasing your revenue integrity.

Partner with Bolder

Bolder Healthcare partners with your organization to make certain your Chargemaster is accurate within 6 weeks. Our unique combination of coding skill and clinical expertise allowed us to develop a proven strategy optimizing recovery. In fact, the lowest ROI on our Chargemaster projects has been 300%. We also provide Chargemaster outsourcing, maintenance and charge comparisons.

Chargemaster Experts

We excel in Chargemaster reform for compliance and revenue generation. Our Clinical Coding Division has more than 28 years of experience and has worked with more than a thousand hospitals, including four of the largest for-profit health systems in the country. Our credentialed coders are also nurses and radiology techs who work exclusively on Chargemasters, with hundreds of Chargemaster reviews completed.
