

WORKERS' COMPENSATION SOLUTION

INCREASE REVENUE FROM COMPLEX CLAIMS

Missed revenue opportunities from workers' compensation claims denials are common. These claims are notoriously intricate, time-consuming and often involve complex legal issues. With limited qualified staff, it can be difficult to determine which claims can be resolved in the timeliest manner for the largest payment amount in order to maximize efficiencies and increase revenue.

Team up with a Leader

Bolder Healthcare is a leader in resolution of complex workers' compensation accounts. We compliantly manage the entire life of a claim including verifying payers and coverage, electronic billing and appealing any underpayments. Our utilization of clinical expertise, data driven analytics and proprietary technology delivers your organization optimal results for revenue accuracy.

Experts and Technology Together

Our experienced specialists collect patient and accident information for correct account classification, allowing your facility's staff to focus on other business priorities. We apply proprietary, decision-tree software that aides in maximizing payment recovery in the minimum amount of time, saving valuable account receivable days and resources.
