

SELF-PAY SOLUTIONS

IMPROVING PATIENT RELATIONSHIP AND REVENUE

In recent years, the increasing amount of high-deductible plans are making it harder for patients to cover out-of-pocket healthcare costs. As the population of these payment-responsible patients grows, providers are finding it increasingly difficult in to collect payment. But, positive patient relationships can be maintained when there are self-pay concerns. With the help of a knowledgeable and supportive staff, self-payments can increase and positive relationships with patients can be maintained, lowering AR days and reducing bad debt.

Partner with Bolder

Bolder Healthcare offers a collaborative approach to self-pay. Our solution addresses your organization's financial challenges by melding our unique technology with proven work processes to improve patient experiences that drive superior results. We recover revenue through efficiently handling claims and supporting self-pay patients who may be eligible for financial assistance.

Patients and Payments Focus

We take full responsibility for early out self-pay activities, including correspondence to collect from patients while they are part of active receivables. We identify insurance, verify coverage, file claims and follow up with payers when payment is not received in a timely manner. Additionally, we support your facility's qualifying patients by locating available financial assistance and charity programs.
