

Solution Overview

TriZetto Clinical CareAdvance and TriZetto QNXT

A unified solution for care management.

The TriZetto® Clinical CareAdvance® solution is integrated with the TriZetto® QNXT™ platform to provide:

- A single, enhanced utilization management (UM) solution that eliminates complex and costly UM data integration
- Compatibility with MCG Health, CWQI and Change Healthcare InterQual®
- Seamless access to QNXT workflows for appeals, grievances, and UM functionality from within CareAdvance
- Greater efficiency through a unified and streamlined utilization, case, and disease management experience
- An enhanced analytics rules engine

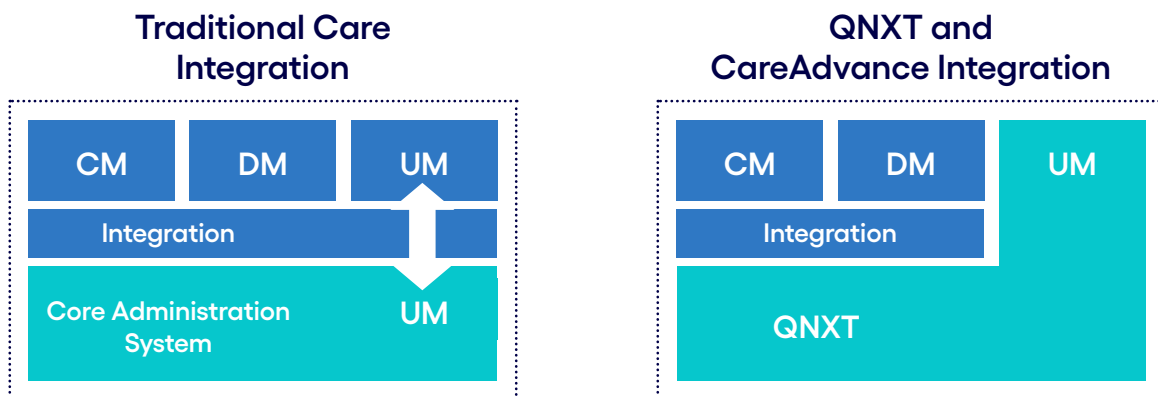

Realizing the cost savings and quality improvement potential of care management programs require efficient, thoughtfully integrated applications that connect care managers to members and providers.

The Clinical CareAdvance application provides unsurpassed care management capabilities to improve outcomes and predictability, and it now has next-generation pre-integration with the QNXT software. This comprehensive solution delivers full care management functionality across utilization, disease and case management initiatives.

Clinical CareAdvance and the QNXT platforms are part of the Cognizant line of TriZetto® Healthcare Products—a portfolio of software products that helps healthcare organizations

enhance revenue growth, drive administrative efficiency, improve cost and quality of care, and enhance the member and patient experience.

This integrated solution supports compliance requirements and simplifies workflows and processes for care and population health management. With the solution, health plans can deliver targeted health information and wellness campaigns more effectively, while getting the most from member and provider interactions.

An effective approach to integration

Powerful QNXT workflow capabilities can be accessed directly from the CareAdvance platform, which eliminates switching between applications.

Immediate access to additional QNXT functionality, such as the TriZetto® QNXT™ Utilization Management Workflow and TriZetto® QNXT Appeals and Grievance Workflow™ solutions, further supports care management activities.

Health plans will benefit from:

- Increased efficiency via a streamlined, unified CM/DM/UM experience
- Reduced risk and total cost of ownership through productized integration
- Eliminating complex UM integrations and ongoing maintenance risks
- Up-to-date QNXT information views without leaving the CareAdvance software
- Improved authorization matching and reduced approval risks with real-time feedback from the QNXT platform

Efficient workflows, improved outcomes, engaged providers

Gain faster, streamlined workflows with these features:

- Consolidated application screens, which allow easy navigation and access to key member information
- An intuitive interface, which grants access to multiple screens without losing work and information gathered during member assessments and interactions
- Configurable security, which enables assignment of various levels of authorized access to member profiles and information

Improve care management program delivery through:

- Accurate forecasting, identification, and stratification of members
- Standard and customized reporting functionality
- An open analytics platform that can be custom integrated with any advanced analytics solution

Deliver real-time services to provider communities through Cognizant web services integration—enabling payer-provider collaboration at the point of care.

Reach your objectives faster

In addition to the Clinical CareAdvance and QNXT solutions, we offer an extensive line of solutions and services that harness the power of digital to optimize your business. Achieve new levels of performance and efficiency with Digital Business, Digital Operations, and Digital Systems and Technology capabilities from Cognizant.
