cognizant®

Get more from your Medicare Enrollment System and achieve new levels of success during Annual Enrollment Period (AEP) and beyond

Streamline your medicare advantage enrollment process to:

- Maintain regulatory compliance
- Improve member experience
- Increase process efficiency

Manage the path

TriZetto® Enrollment Administration Manager (EAM) and TriZetto® Enrollment Administration Manager Workflow manage the path

From application **submission** to **enrollment acceptance** for Medicare Advantage plans

Initiate

Initiate new enrollments, PBP changes, disenrollments and member updates from multiple channels.

Validate & automate

Centers for Medicare & Medicaid Services (CMS) Batch Eligibility Query (BEQ) member verifications using batch or API processing.

Enrollment and member change transactions to streamline processes, maximize acceptance rates and minimize manual work.

Compliance

Satisfy Part C and Part D enrollment reporting requirements, including Transaction Reply Reports (TRR) for member updates.

- Enforce enrollment-related CARA Legislation.
- Maintain compliance with CMS regulations.

Manage

Provide a clear view of daily enrollment work in progress. Automate routing and assignment of work items based on specific roles, queues and priorities.

Integrate

Integrate enrollment data with core administration applications for billing, claims processing and member services.

Going above and beyond

The TriZetto EAM & Workflow team is on the job to **improve efficiency and ease the burden placed on your enrollment and IT teams** supporting you by:

Providing a **First Responder Team** to react to your concerns	Proactively **monitoring and responding to CMS** releases and updates
Publishing feature and release **FAQ documents**	Delivering **timely product updates** for CMS mandates
Conducting **information sharing sessions** for new capabilities	Enhancing **model letter configuration** and generation

We serve

5.25m Medicare advantage beneficiaries
