# TriZetto NetworX Suite Adapter for Solventum™ Grouper Plus Content Services (GPCS)

## Expanded offering for Medicare and Medicaid claims pricing

Whether the priority is keeping up with evolving regulatory compliance between CMS and state updates, improving operational efficiency, supporting new Medicare and Medicaid payment methodologies or all the above, health plans need solutions that keep pace with regulatory and business demands.

Meeting these requirements calls for solutions that can deliver timely updates, maintain pricing accuracy and scale with operational demands. Leveraging automation and cloud-delivered content through a single integration helps health plans manage complexity efficiently while supporting compliance and audit readiness. With costs continuing to rise, it is just as important to ensure meaningful options are available when deciding on the appropriate solutioning to meet your operational and financial needs.

## TriZetto NetworX Suite Adapter for Solventum GPCS: One source, one integration

The TriZetto® NetworX Suite® has long supported Medicare and Medicaid Prospective Payment Systems (PPS) integration to meet diverse business needs and improve operations. In an effort to expand and build upon that, we have partnered with Solventum to not only offer additional PPS solutions but to also be a reseller of Solventum™ GPCS products. By becoming a reseller, we are your single source for procurement, pricing and support.

To bring this to life, we have introduced the NetworX Suite Adapter for Solventum GPCS. Through the adapter, we have enabled NetworX Pricer® and NetworX Modeler® users to maintain the automation and scalability they rely on—while providing an additional fully supported, Medicare/Medicaid PPS integration that brings pricing accuracy, strengthens and simplifies compliance, and reduces IT overhead through the Solventum GPCS cloud-powered service.

### At a glance: Benefits of the TriZetto NetworX Suite Adapter for Solventum GPCS

#### Unified partnership:

One source for pricing, procurement, maintenance and support.

#### Integrated and

**automated:** Single adapter connects NetworX to Solventum GPCS for Medicare and Medicaid PPSs.

#### Comprehensive coverage:

Supporting most major Medicare and Medicaid pricing methodologies.

#### Cloud-powered

**efficiency:** Updates for Solventum GPCS are made dynamically via the cloud, reducing IT effort.

#### Flexibility:

Solventum GPCS can be used independently or alongside your existing PPS solution with NetworX Pricer and Modeler.

#### Compliance-ready:

Medicare/Medicaid updates are available as soon as Solventum publishes the update.

#### Modeling impact:

Simulate pricing impacts to claims due to Medicare/Medicaid grouping and pricing logic updates, with NetworX Modeler, to forecast/analyze shifts and costs.

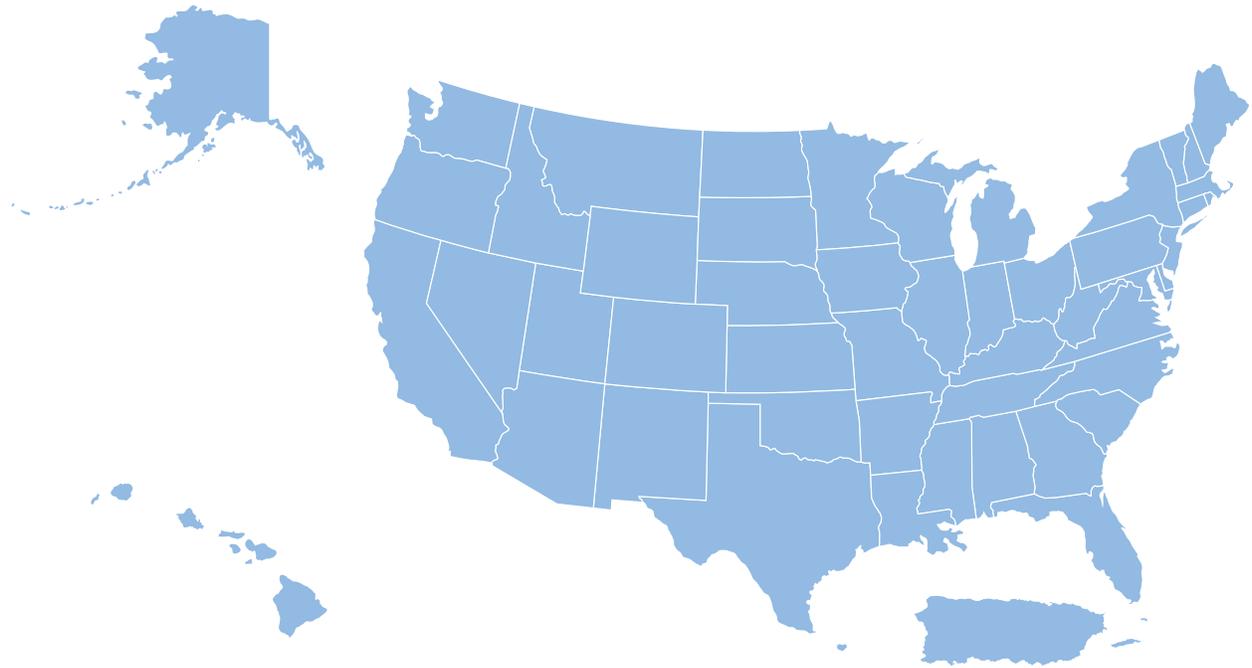

## A comprehensive approach to Medicare and Medicaid pricing with the NetworX Suite solution

Health plans can be assured that the partnership with Solventum™ GPCS delivers comprehensive PPS coverage, supporting most major Medicare and (where available) Medicaid prospective payment systems across the United States (including Puerto Rico). Staying in step with regulatory changes across those various lines of business—whether at the CMS level or individual states—is crucial for health plans today. Fortunately, Solventum GPCS content updates are delivered and made available almost immediately once the updates are published.

### Our combined solution supports Medicare and Medicaid pricing methodologies:

- MS-DRG
- APC
- ASC
- ESRD
- Solventum™ EAPG
- Solventum™ APR DRG
- HHA
- FQHC
- SNF
- Hospice
- Psychiatric
- Rehabilitation
- Long-term care

### NetworX and Solventum GPCS cover most Medicare and Medicaid pricing methodologies across the United States and qualifying territories

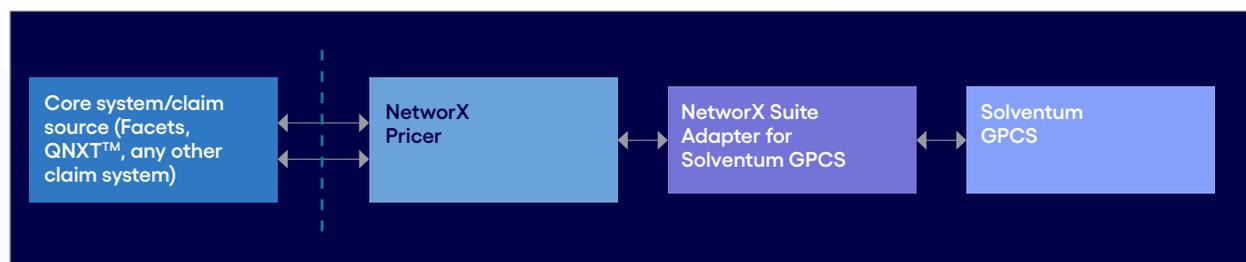

## Providing a seamless fit

The new integration with Solventum™ GPCS was designed to provide clients with choices while delivering a seamless fit—with existing NetworX Suite solutions—to help clients with a faster speed to market. Existing clients will continue taking advantage of the real-time pricing with NetworX Pricer that clients already enjoy. Health plans can use Solventum GPCS with NetworX Suite—either in place of existing PPS solutioning or independently—as you grow and expand your business.

For those that use TriZetto NetworX Pricer Standalone without a TriZetto core solution, you can still take full advantage of the NetworX Suite Adapter for Solventum GPCS by leveraging the core-agnostic approach of the NetworX Suite.

### The integration with NetworX and Solventum GPCS just fits right:

TriZetto NetworX Pricer for TriZetto Facets® integrated version
TriZetto NetworX Pricer - Standalone
