Streamline Your ICD-10 Transition

Migrating to the ICD-10 code set brings both short-term operational challenges and long-term opportunities to healthcare organizations. Whether you require a strategy for end-to-end transition or focus around a specific aspect of migrating to ICD-10, Cognizant offers the full range of industry consulting expertise, tools and implementation experience to ensure a smooth ICD-10 transition.

Addressing the Impact of ICD-10 on Your Organization

- **Assessment & Planning:** We gain a complete understanding of ICD-10’s impact on your people, processes, IT portfolio and partners and how to address it with our field-proven approach to assessment and planning.

- **Code Mapping:** Our planning includes comprehensive mapping of codes, business and policy rules to ensure your post-transition coding operations are efficient and benefit neutrality, financial integrity, clinical equivalence are maintained.

- **Testing:** We base our unique approach to testing on truly meaningful metrics that validate ICD-10 mapping to ensure people, processes, IT, systems and interactions with external parties are correctly configured for ICD-10 based business rules and policies.

- **Compliance Program Management:** We can manage every aspect of your ICD-10 transition across all platforms, processes, people and phases. Our integrated services and T-10 suite of tools ensure your organization benefits from completely synchronized business process and solutions across each phase of transition.

Efficient and Effective ICD-10 Compliance

- **Business process re-engineering.** We will ensure your business, clinical and financial operations comply with the demands of ICD-10 identified in our planning phases.

- **Complete systems and technology services.** Our team will configure each of your affected systems and tools to comply with ICD-10, from developing and building to implementation and migration of applications, data, analytics through remediation related to applications, internal and external interfaces, data stores and reporting/analytics.

- **Operations and quality assurance.** Cognizant ensures stability and quality both pre- and post-compliance by monitoring key performance indicators and appropriate analytics, and ensuring problem areas are quickly identified and addressed.

- **Creating greater business value with ICD-10.** Effectively leveraging ICD-10 codes will improve business outcomes. As ICD-10 operations mature, we help you identify areas for generating savings and business opportunity, from improving auto adjudication rates to managing population health more effectively.
