Market Position
Cognizant is one of the world’s leading professional services companies, transforming clients’ business, operating and technology models for the digital era. Our industry-based, consultative approach helps many of the best-known organizations in every industry and geography envision, build and run more innovative, efficient businesses.

Value Proposition
We help clients get digital done at scale and speed—the scale needed to transform their complex organizations to capitalize on the tremendous opportunities the latest technologies make possible, and the speed expected by their customers, partners and clients. When we do digital at scale for clients, we systematically rethink how they create value everywhere in their organizations. Cognizant Digital Business helps clients redesign their business models, reinventing existing businesses and creating new ones by innovating products, services and experiences with digital. Cognizant Digital Operations helps clients reinvent their operating models, achieving hyper-agility in core business processes by harnessing automation and intelligent, on-demand platforms and utilities. Cognizant Digital Systems & Technology helps clients refresh their technology models, matching their business’ capabilities with its ambitions by simplifying, modernizing and securing enabling systems. Because today, creating value by leveraging technology is very industry-specific, we continue to deepen our expertise in 20 different industries, including banking and financial services, healthcare, manufacturing and retail. And to help speed clients’ journeys toward becoming digital, we bring our digital capabilities and industry expertise together into horizontal offerings and industry solutions that accelerate the most essential leaps that today’s technology makes possible, and complement those solutions with consulting and services built for the speed of business today.

Culture
Our culture sets us apart from other institutions able to do this kind of high impact work with clients. Clients value us for:

- **Client Focus**, a complete dedication to accomplishing their goals and valuing their satisfaction above all
- **Empowerment**, the individual initiative each one of us takes to get the job done for our clients
- **Passion**, our love of technology, and our optimism about what it can do for our clients and the people they serve
- **Collaboration with clients** and each other, bringing diverse teams together to work in whatever way is best for each organization
- **Transparency**, our open sharing of information, positive or negative, and of ideas
- **Integrity**, meaning we acknowledge and fix our mistakes, respect our clients and associates, and keep everyone’s best interests in mind

The Cognizant Difference
Cognizant is designed to help get digital done across large, established organizations—one of the few companies with the breadth of capabilities needed to do it:

- **Deep technology and industry expertise** at the scale required to transform the world’s most complex and critical enterprises
- **Long-term, trusted relationships** helping to design and manage our clients’ most essential business processes, giving us the ability to spot opportunities and understand the complexities of how organizations can take advantage of them
- **An agile, diverse, born-global team** that combines a massive delivery capability in India with a network of regional delivery centers in North America, Europe, Latin America and Asia able to partner locally with clients
- **A client-first culture of flexible ways of working**, entrepreneurship and empowerment that enables us to collaborate seamlessly with clients
- **A sound management track record** of shifting ahead of client needs, building new capabilities and delivering industry-leading growth to investors

Corporate Social Responsibility

Cognizant focuses on areas where believe we can have the most impact on the many communities in which we live and work.

Sustainability: improving our environmental performance through organization-wide goals and programs such as Cognizant Go Green

Education: creating educational opportunities for children and underserved communities through initiatives such as:
  • The Cognizant U.S. Foundation, created to support digital education and skills training across America
  • Project Outreach, created to reduce educational disparity throughout the world through a broad collection of volunteer programs
  • A variety of public-private partnerships for education and skills training in the U.S. and around the world, such as Making the Future, designed to spark an interest in STEM education among young people

Outreach: reaching out to our global community through the Cognizant Foundation with the objective of improving the lives and opportunities of economically and socially disadvantaged segments of society in India

Empowering Cognizant associates:
  • Championing diversity through business resource groups like the Cognizant African American Latino Group, Cognizant Embrace and Women Empowered
  • Hiring veterans and developing their careers through the Cognizant Veterans Network
  • Strengthening our talent base through our learning and development organization, Cognizant Academy
