

Fixed Scope Offering for Oracle ERP Cloud Next Generation Financial Management Solution in Cloud - Ready-to-use in 10 Weeks!

Enterprises today are facing uncertainty and unprecedented challenges, requiring a new level of agility to adapt quickly to changes in the business environment. Cloud Computing enables you to navigate these situations and avoid the pitfalls of over-investment or under investment in IT. In the past few years cloud adoption saw significant growth and has now become a mainstream technology. With the shift in economic dynamics, CIOs are investing heavily in cloud technologies and expect cloud transformation to lower IT costs and increase

efficiencies, while also providing powerful new opportunities to drive business growth.

The cloud market will accelerate faster in 2017 as enterprises around the world look to cloud to power their core business systems in addition to their customer-facing applications.
