Benefits
- Protect your investments in Oracle Forms
- Reduces Time-to-Market
- Re-use of code and skills in your organization

Benefits
- Extend existing business functions with Digital
- Leverage opportunities with self-service and Mobile extensions

Benefits
- Open Standards Architecture
- Integration with Oracle Fusion Middleware components
- Customization and Personalization

Organizations may leverage their existing investment in Oracle Forms by upgrading to the latest version of Oracle Forms or extending/transferring applications, using the Oracle Application Development Framework. Forms Modernization leverages the integration with Oracle Fusion Middleware components to embrace Social, Mobile, Analytics and Cloud capabilities.
Cognizant’s Application Digital Transformation Methodology

Representative Success Stories

Oracle Forms Upgrade for a Leading Provider of Insurance and Wealth Management Services
Cognizant upgraded the existing Oracle Forms and Reports v6i applications to Forms v10g in the modernization project. The upgrade resolved several performance issues raised by the applications users. The functionalities of Oracle Reports were augmented using web technologies. The new platform has a rich UI that the technology and operations teams are very comfortable administering and managing. Following the upgrade, the application is now secure, supported and certified.

ADF Migration for Leading NA Transportation and Logistics Provider
The customer had several proprietary, home-grown applications in Revenue and Network management processes that needed to be re-architected with Oracle Fusion Middleware suite and integrated with Oracle ERP Applications such as Siebel, EBS and OTM. The rich and versatile web-based UI has resulted in improved usability and user delight, while consolidating disparate legacy systems under a single umbrella. This is in alignment with the customer’s future technology roadmap.
